The cam position sensor is critical to the proper functioning of the engine management system in its timing of engine events. The sensor delivers information on the position of the camshaft that actuates the engine's intake valves to the computer, which uses that information to deliver fuel and spark at the correct time.

The main 1.8t FAQ is great and all...but it isn't kept updated with all the new, great stuff people do. The user who created it won't respond to PM's and the mods won't edit it either. On the same note, we keep pointing all the new users at the FAQ as their first mode of defense. I'm creating this so we can create a supplementary FAQ.
