

accounting information systems solutions pdf

An accounting as an information system (AIS) is a system of collecting, storing and processing financial and accounting data that are used by decision makers. An accounting information system is generally a computer-based method for tracking accounting activity in conjunction with information technology resources.

Accounting information system - Wikipedia

Enterprise Accounting Software. Enterprise solutions typically target large organizations of 100 users or more. The feature set and functionality of these systems is advanced and very robust, so specialized businesses of as few as five users, such a process based manufacturing or large scale project management, could benefit from these applications.
