To change the codes on a Honeywell alarm system, you will follow a certain process depending upon the system type. A panel with a numeric keypad, such as a Honeywell Vista or an L3000, will have a different process than a touchscreen system, like a Lynx Touch panel or a Lyric Controller.. Any user code, including

the Master Code can be changed on a Honeywell system at any time.

How to Change the Codes on a Honeywell Alarm System

First, we need to know what model number system you have. If you have a VISTA-15P or 20P, there should be a black PROM chip in the center of your green circuit board (located inside the metal alarm cabinet) and on the chip will be printed something starting with WA.
