PolarFit Â® Reaction Cooling Provides fast, precise, flexible, low-cost cooling of advanced synthesis reactions

Advanced liquid nitrogen technologies

iPolymer manufactures a wide range of high purity fluid handling products and engineered fabricated solutions. Our standard lines include: valves, fittings, spray devices and actuators, which we can customized for your application. For information on our products, call 949.458.3731.

Electrospinning is a fiber production method which uses electric force to draw charged threads of polymer solutions or polymer melts up to fiber diameters in the order of some hundred nanometers. Electrospinning shares characteristics of both electrospaying and conventional solution dry spinning of fibers. The process does not require the use of coagulation chemistry or high temperatures to ...
