Pre-Algebra - Fractions Objective: Reduce, add, subtract, multiply, and divide with fractions. Working with fractions is a very important foundation to algebra. Here we will briefly review reducing, multiplying, dividing, adding, and subtracting fractions. As this is a review, concepts will not be explained in detail as other lessons are.

Basic Algebra 0.1 The Laws of Algebra Terminology and Notation. In this section we review the notations used in algebra. Some are peculiar to this book. For example the notation  $A:= B$  indicates that the equality holds by definition of the notations involved. Two other notations which will become important when we solve equations are  $=)$  and  $()$ .

Another standard is book's audience: sophomores or juniors, usually with a background of at least one semester of calculus. The help that it gives to students comes from taking a developmental approach "this book's presentation

emphasizes motivation and naturalness, using many examples.

The developmental approach is what most recommend this book so I will elaborate.
