As a Software Engineer for the CIA, you will focus in the cyber arena and specialize in the design, development, integration, and deployment of cutting edge tools, techniques and systems to support cyber operations and other intelligence activities.

Software Engineer â€” Central Intelligence Agency

Computer software, or simply software, is a collection of data or computer instructions that tell the computer how to work. This is in contrast to physical hardware, from which the system is built and actually performs the work. In computer science and software engineering, computer software is all information processed by computer systems, programs and data.
