A Cayley table, after the 19th century British mathematician Arthur Cayley, describes the structure of a finite group by arranging all the possible products of all the group's elements in a square table reminiscent of an addition or multiplication table. Many properties of a group "such as whether or not it is abelian, which elements are inverses of which elements, and the size and contents ...

In writing, a space () is a blank area that separates words, sentences, syllables (in syllabification) and other written or printed glyphs (characters). Conventions for spacing vary among languages, and in some languages the spacing rules are complex. [citation needed]Typesetting uses spaces of varying length for specific purposes. The typewriter, on the other hand, can accommodate only a ...
