

### **business solution architect pdf**

Solution architecture is a practice of defining and describing an architecture of a system delivered in context of a specific solution and as such it may encompass description of an entire system or only its specific parts. Definition of a solution architecture is typically led by a solution architect. There are many definitions of "solution architecture" in the industry but no official ...

from The Rational Edge: If, in movie-making terms, the software project manager is the producer, since they make sure that things get done, then the software architect is the director, who makes sure that things are done correctly and, ultimately, satisfy stakeholder needs. As the second of a four-part series, this article describes the role of software architect.
