Principles on which OSI model was designed: A layer should be created where different level of abstraction is needed. Each layer should perform a well defined function. The function of each layer should be chosen according to the internationally standardized protocols. The number of layers should be large enough that distinct functions should not be put in the same layer and small

Bankruptcy is a legal status of a person or other entity who cannot repay debts to creditors. In most jurisdictions, bankruptcy is imposed by a court order, often initiated by the debtor.. Bankruptcy is not the only legal status that an insolvent person may have, and the term bankruptcy is therefore not a synonym for insolvency. In some countries, such as the United Kingdom, bankruptcy is ...
