Overview An integral role. Civil engineering is all about designing, building and maintaining things that can change the world. Roads, bridges, canals, dams and buildings have all played an integral role in how the human race has developed.

Civil Engineering - BEng (Hons) | London South Bank University

In civil engineering, a cut or cutting is where soil or rock material from a relative rise (elevated landscape) to an earlier section of the route is cut out to make way for a further section of the route, whether canal, road or railway line. It can also be used in river management to speed the flow of the river, short-cutting a meander.

Cut (earthmoving) - Wikipedia
