The new edition has also been revised to give more emphasis to specific examples worked out in detail. Classical Mechanics is written for undergraduate students of physics or applied mathematics. It assumes some basic prior knowledge of the fundamental concepts and reasonable familiarity with elementary differential and integral calculus.

Classical Mechanics - T. W. B. Kibble, Frank H. Berkshire

Classical Mechanics (5th ed.) is a well-established textbook written by Thomas Walter Bannerman Kibble, FRS, (born 1932) and Frank Berkshire of the Imperial College Mathematics Department. The book provides a thorough coverage of the fundamental principles and techniques of classical mechanics, a long-standing subject which is at the base of all of physics.
