Hazard: Slips, trips and falls on stairways are a major source of injuries and fatalities among construction workers. Solutions: Stairway treads and walkways must be free of dangerous objects, debris and materials. Slippery conditions on stairways and walkways must be corrected immediately.

Worker Safety Series - Construction | Occupational Safety

Construction is the process of constructing a building or infrastructure. Construction differs from manufacturing in that manufacturing typically involves mass production of similar items without a designated purchaser, while construction typically takes place on location for a known client. Construction as an industry comprises six to nine percent of the gross domestic product of developed ...
