The master of engineering (M.Eng.) in civil and environmental engineering program is a two-semester coursework and project-oriented program for the student who wishes to improve the depth and breadth of their technical abilities in the context of the engineering profession.

Civil and Environmental Engineering - Cornell University

Biological Engineering is an interdisciplinary area focusing on the application of engineering principles to analyze biological systems and to solve problems in the interfacing of such systems -- plant, animal or microbial--with human-designed machines, structures, processes and instrumentation. The biological revolution continues to mature and impact all of us.
