The BMW M5 is a high performance variant of the 5 Series executive car built by the Motorsport division of BMW. The first incarnation of the M5 was hand-built in 1986 on the 535i chassis with a modified engine from the M1 that made it the fastest production sedan at the time. Versions of the M5 have been built from subsequent generations of the 5 Series platform.

The BMW E34 is the third generation of the BMW 5 Series, which was produced from the 2nd of November 1987 until June 1996. Initially launched as a sedan, the E34 also saw a "Touring" wagon (estate) body style in 1990, a first for the 5 Series. BMW replaced the E34 with the E39 in December 1995, although E34 Touring models remained in production until June 1996.
