Circuit Cellar delivers need-to-know information about microcontrollers, embedded systems, and electrical engineering. Get professional electrical engineering

Circuit Cellar | Microcontrollers, Embedded Systems

For example, the high temperatures will vaporize copper, which expands at the rate of 67,000 times its mass when it changes from solid to vapor. Even large objects such as switchboard doors, bus bars, or other components can be propelled several feet at extremely high velocities.

10 Common Causes Of Arc-Flash Accidents

In physiology, an action potential occurs when the membrane potential of a specific axon location rapidly rises and falls: this depolarisation then causes adjacent locations to similarly depolarise. Action potentials occur in several types of animal cells, called excitable cells, which include neurons, muscle cells, endocrine cells, and in some plant cells.

Action potential - Wikipedia
