Mass surveillance is the intricate surveillance of an entire or a substantial fraction of a population in order to monitor that group of citizens. The surveillance is often carried out by local and federal governments or governmental organisations, such as organizations like the NSA and the FBI, but it may also be carried out by corporations (either on behalf of governments or at their own ...

Classification of tumor stage is a cornerstone of providing care for patients with cancer. The fundamental purpose of stage classification is to provide a nomenclature about the anatomic extent of disease that is used consistently around the world.

The Eighth Edition Lung Cancer Stage Classification

Self-organization, also called (in the social sciences) spontaneous order, is a process where some form of overall order arises from local interactions between parts of an initially disordered system. The process is spontaneous, not needing control by any external agent. It is often triggered by random fluctuations, amplified by positive feedback.
