A biological system is a complex network of biologically relevant entities.. Biological organization spans several scales. Examples of biological systems at the macro scale are populations of organisms.On the organ and tissue scale in mammals and other animals, examples include the circulatory system, the respiratory system, and the nervous system.. On the micro to the nanoscopic scale ...

1. Adversity. In 2013, the United States reached an educational milestone. For the first time, a majority of the country's public school students – 51 percent of them, to be precise – fell below the federal government's threshold for being "low income," meaning they were eligible for a free or subsidized school lunch.
