The Stirling engine (or Stirling's air engine as it was known at the time) was invented and patented in 1816. It followed earlier attempts at making an air engine but was probably the first put to practical use when, in 1818, an engine built by Stirling was employed pumping water in a quarry. The main subject of Stirling's original patent was a heat exchanger, which he called an "economiser ...

Image file is one of the most consistent parts of operating system that stores the digital photos and images. In this the image files are generally composed of vector or pixels data that are rasterized to pixel when displayed in vector graphic display.

### **How to Open Image Files - File Extension Info!**

Neutral formats are the preferred choice. On the one hand, they offer the best possible protection for original files. On the other hand, neutral formats give significant savings in time and licensing costs by providing cross-company access to important information without the need for accessing original applications.
