In any engineering drawing, information of different kinds are stored. Engineering drawing is a graphic language that expresses and conveys ideas enabling the perceiving, understanding and production of

technical objects. This shows that the engineering drawing is an important means of communication between men, men and machines and between machines.

Textbook for Vocational Training - Engineering Drawing Metal

communication (technical/engineering drawing) may prove irreplaceably useful. Drawing (just like photography) is one of the basic forms of visual communication. Drawing is used to record objects and actions of everyday life in an easily recognizable manner. There are two major types of drawings: artistic drawings and technical drawings.
