The Dimensional Metrology Group promotes health and growth of U.S. discrete-parts manufacturing by: providing access to world-class engineering resources; improving our services and widening the array of mechanisms for our customers to achieve high-accuracy dimensional measurements traceable to national and international standards.

Engineering Metrology Toolbox

An architectural drawing or architect's drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building ...

The texture-related shape anisotropy of cup drawn metallic sheet parts is referred to as earing or ear formation. It is a characteristic phenomenon associated with the crystallographic texture and the resulting elastic-plastic anisotropy of metals.

Sheet Forming Simulations using Crystal Plasticity Finite

The private finance initiative (PFI) is a way of creating "publicâ€private partnerships" (PPPs) where private firms are contracted to complete and manage public projects. Developed initially by the governments of Australia and the United Kingdom, and used extensively there and in Spain, PFI and its variants have now been adopted in many countries as part of the wider programme of ...
