The travelling salesman problem (TSP) asks the following question: "Given a list of cities and the distances between each pair of cities, what is the shortest possible route that visits each city and returns to the origin city?" It is an NP-hard problem in combinatorial optimization, important in operations research and theoretical computer science. ...

YACOOB J: Introduction. We must in this case consider the difficult and important question of the requirements, including those of fairness and justice, that must be complied with in the process of the relocation of a large community so that better housing may be built in these informal settlement areas.

QUESTION: When you shoot an arrow at a target, the arrow eventually reaches the halfway point between you and the target. Then it eventually reaches the halfway point of the distance between the previous halfway point and the target.

Ask the Physicist!

A roundabout, (also called a traffic circle, road circle, rotary, rotunda or island), is a type of circular intersection or junction in which road traffic is permitted to flow in one direction around a central island, and priority is given to traffic already on the junction.. Modern roundabouts observe various design rules to increase safety. Compared to stop signs, traffic signals, and ...

One of the oft-cited objections to the term â€œgreenhouse effectâ€• is that it is a misnomer, that a real greenhouse (you know, the kind you grow plants in) doesnâ€™t work by inhibiting infrared energy loss.

Does a Greenhouse Operate through the Greenhouse Effect

Series GFM Gas Mass Flow Meters combine a straight tube sensor with a restrictor flow element to provide high accuracy and repeatability. Flow rates are virtually unaffected by temperature and pressure variations. Actual gas flow is displayed in engineering units on a 3-1/2 digit, 90° tiltable LCD readout.

Series GFM Gas Mass Flow Meter - Dwyer Instruments

Therefore the main physics argument supporting enhanced global warming caused by increasing levels of CO2 is the in height and thereby lower temperature of the effective radiating level of the atmosphere to space.
