An inventor is a person who creates or discovers a new method, form, device or other useful means that becomes known as an invention. The word inventor comes from the Latin verb invenire, invent-, to find. The system of patents was established to encourage inventors by granting limited-term, limited monopoly on inventions determined to be sufficiently novel, non-obvious, and useful.

Money, Inc. quoted Professor Alexander Wyglinski, electrical and computer engineering, in this article. "Computer simulators are useful since the cost of using human testers can be significant (using a computer simulation requires significantly less resources compared to actual physical cars + human testers)," he said.
