Petroleum engineering is a field of engineering concerned with the activities related to the production of hydrocarbons, which can be either crude oil or natural gas. Exploration and production are deemed to fall within the upstream sector of the oil and gas industry. Exploration, by earth scientists, and petroleum

File Naming The method for naming a file is detailed within BS 1192:2007+A2:2016 Collaborative production of architectural, engineering and construction information “ Code of practice. Before we get into the detail of how the naming works, a couple of key points: To comply with Level 1 BIM (and subsequently Level 2 BIM) standard naming applies [â€!]
