High Boost Multiphase Pump

Understand the working of the FRAMO hydraulic circuit and the components therein, the various safety devices and emergency overrides. Operate the FRAMO cargo pumping system and pumps efficiently and safely. Carry out normal overhaul / repair on the Cargo pumps and Flow control valves. Learn through sharing of experiences amongst participants.

'FRAMO' Hydraulic Cargo Pumping System Course

Framo Engineering, founded in 1983, employs approximately 500 people, mostly in Norway. The company is the leading multiphase subsea pump and meter supplier, and has focused its investments in the development of new technology for oil and gas production from subsea wells—particularly in the emerging deepwater market.

Schlumberger Acquires Remaining Equity Shares of Framo

Framo AS, which is based in Bergen, Norway, is the parent company of Framo worldwide. Our pumping systems are sold under the Framo trademark.
