ABOUT THIS JOURNAL Welcome to the home page of the Journal of Sustainable Energy Engineering (JSEE), committed to publishing peer-reviewed original research seeking sustainable methods of worldwide energy production through engineering, scientific, and technological advances. Our aim is to publish your work as efficiently and effectively as possible so the world is aware of it.

### **Scrivener Publishing journals: 1**

It is known that the price of liquefied petroleum gas (LPG) is higher than that of natural gas from which it is derived. So the modification of a natural gas plant to produce LPG instead of lighter hydrocarbon gases is very important in the view point of economics.

### **Maximization of natural gas liquids production from an**

Titan Enterprises offers a high-pressure turbine meter for measuring the flow of liquid refrigerants. Incorporating steel reinforced polymer components, to give a pressure rating of 40 Bar, the low inertia turbines of the flowmeter have proven ideal for measuring the low viscosities (0.3 to 0.4 centipoises) encountered with volatile refrigerant fluids measured in the liquid form.
