Seven studies using experimental and naturalistic methods reveal that upper-class individuals behave more unethically than lower-class individuals. In studies 1 and 2, upper-class individuals were more likely to break the law while driving, relative to lower-class individuals. In follow-up ...

Higher social class predicts increased unethical behavior

Plagiarism detection is the process of locating instances of plagiarism within a work or document. The widespread use of computers and the advent of the Internet has made it easier to plagiarize the work of others. Most cases of plagiarism are found in academia, where documents are typically essays or reports.

Mathematical logic is a subfield of mathematics exploring the applications of formal logic to mathematics. It bears close connections to metamathematics, the foundations of mathematics, and theoretical computer science. The unifying themes in mathematical logic include the study of the expressive power of formal systems and the deductive power of formal proof systems.

The importance of Antun Lucic - Anthony F. Lucas for the development of petroleum engineering worldwide is analogous to that of Nikola Tesla (also born in Croatia) for the development of electrical engineering.. As to his nationality, it is often mistakenly described as Austrian, and sometimes even Italian (like in Who is Who in America, where there is also another mistake - that he was born ...

We show, via a massive (N = 689,003) experiment on Facebook, that emotional states can be transferred to others via emotional contagion, leading people to experience the same emotions without their awareness. We provide experimental evidence that emotional contagion occurs without direct interaction between people (exposure to a friend expressing an emotion is sufficient), and in the complete ...

The five-pointed star or pentagram is one of the most potent, powerful, and persistent symbols in human history. It has been important to almost every ancient culture, from the Mayans of Latin America, to India, China, Greece, and Egypt. It has been found scratched on the walls of Neolithic caves, and in Babylonian drawings, where it marks the pattern the planet Venus makes on its travels- a ...
