A graphing calculator is a class of hand-held calculator that is capable of plotting graphs and solving complex functions. While there are several companies that manufacture models of graphing calculators, Hewlett-Packard is a major manufacturer. The following table compares general and technical information for Hewlett-Packard graphing calculators:

PRELIMINARIES : For some obscure reason, the default factory setting for the HP-49g+ and HP-50g calculators (which differ in color and physical design but not electronically) is to have infix ("algebraic") data entry mode with "soft menus" disabled. However, in their "Quick Start" manual that comes with every new calculator, HP recommends their historical choice of RPN data entry and soft menus.
