South Africa has a new National Integrated ICT Policy, which was approved by Cabinet on 3 October 2016. The South African government has changed its policy on information, communication, and technology (ICT).

National Integrated ICT Policy White Paper - Michalsons

ICT development includes many types of infrastructure and services, ranging from telecommunications, such as voice, data, and media services, to specific applications, such as banking, education, or health, to the implementation of electronic government (e-government).

Information and communication technologies for development

Design for All in the context of information and communications technology (ICT) is the conscious and systematic effort to proactively apply principles, methods and tools to promote universal design in computer-related technologies, including Internet-based technologies, thus avoiding the need for a posteriori adaptations, or specialised design (Stephanidis et al., 2001).

Design for All (in ICT) - Wikipedia

The Digital Single Market strategy aims to open up digital opportunities for people and business and enhance Europe's position as a world leader in the digital economy.
