As in many other behavioral science fields, explanations and predictions are the main goals in finance.4 To this end, both theoretical analyses and empirical investigations are necessary.

A Theoretical Discussion on Financial Theory

Economics (/ É¸ k É¸ m É¸ k s, iÉ¸ k É¸ -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.
