**Financial Accounting - KESDEE**

Property, Plant, and Equipment is a separate category on a classified balance sheet. It typically follows Long-term Investments and is oftentimes referred to as "PP&E." Items appropriately included in this section are the physical assets deployed in the productive operation of the business, like land, buildings, and equipment.

**What Costs Are Included In Property, Plant, & Equipment**

Under the straight-line approach the annual depreciation is calculated by dividing the depreciable base by the service life. To illustrate assume that an asset has a \$100,000 cost, \$10,000 salvage value, and a four-year life. The following schedule reveals the annual depreciation expense, the resulting accumulated depreciation at the end of each year, and the related calculations.

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
