This is the second Konica-Minolta Magicolor color laser I have purchased. The first was a 2430DL which I purchased for my office. Basically the printers are the same except that the 2400W does not have ethernet connectivity, or an LED read-out (the printer messages from the 2400W pop up in a window on your computer screen), and the 2400W costs about \$100 less.
