Whale watching is the practice of observing whales and dolphins in their natural habitat. Whale watching is mostly a recreational activity (cf. birdwatching), but it can also serve scientific and/or educational purposes. A study prepared for International Fund for Animal Welfare in 2009 estimated that 13 million people went whale watching globally in 2008.

**Whale watching - Wikipedia**

Irreducible complexity (IC) is the idea that certain biological systems cannot evolve by successive small modifications to pre-existing functional systems through natural selection. Irreducible complexity is central to the creationist concept of intelligent design, but it is rejected by the scientific community, which regards intelligent design as pseudoscience.

**Irreducible complexity - Wikipedia**

Contemporary scientists are very different from the well-known in our history classical scientific type. It was the time when a very rare, perceptive and gifted independent man had found his new vision, and could even sacrifice his very life for his true discovery.
