Hi thanks for this info helps a lot but I have a question. It concerns organic compounds. Say you have a

ketone such as heptanone. So the boiling point of this compound should be relatively high because it has a large surface area and it is a polar molecule so there are dipole-dipole forces present.

### **3 Trends That Affect Boiling Points - Master Organic Chemistry**

Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.

Context: Continuous delivery is a software development discipline in which software is always kept releasable. The literature contains instructions on how to adopt continuous delivery, but the adoption has been challenging in practice. Objective: In this study, a systematic literature review is conducted to survey the faced problems when adopting continuous delivery.

#### **Problems, causes and solutions when adopting continuous**

An artificial neural network is a network of simple elements called artificial neurons, which receive input, change their internal state (activation) according to that input, and produce output depending on the input and activation.. An artificial neuron mimics the working of a biophysical neuron with inputs and outputs, but is not a biological neuron model.

### **Artificial neural network - Wikipedia**
