In 2003, Kodak launched a comprehensive business overhaul, focusing on moving the business from traditional print to digital. At the same time, the company revamped its supply chain, moving from a traditional to a demand-driven logistics model.

Demand-Driven Logistics: Adjusting Focus - Inbound Logistics

CDP is an important aspect of managing value chains. Generally, the first step of CDP is to forecast product demand. A manager can plan resource deployment in accordance with the resulting forecasts. It's a bottom-up approach vs. top down planning. Associated risks with this method are: Low forecast accuracy and numbers of planners required.
