What is the Putnam Competition? The William Lowell Putnam Mathematical Competition is the preeminent mathematics competition for undergraduate college students in the United States and Canada.

Putnam Competition | Mathematical Association of America

In contemporary education, mathematics education is the practice of teaching and learning mathematics, along with the associated scholarly research.. Researchers in mathematics education are primarily concerned with the tools, methods and approaches that facilitate practice or the study of practice; however, mathematics education research, known on the continent of Europe as the didactics or ...

Teachers have received limited guidance about writing during math instruction. To improve this situation, in 2015, the Elementary Mathematical Writing Task Force, of which three of us were members (Casa et al., 2016), convened to clarify different reasons why students should write in math class and to provide recommendations for writing that might further students' mathematics learning. 1 To ...

Why Should Students Write in Math Class? - Educational

Mathematical goals. This lesson unit is intended to help you assess how well students are able to: Articulate verbally the relationships between variables arising in everyday contexts.

A Model of Diverse Problem Solvers. Our model consists of a population of problem solvers of limited ability who attempt to maximize a function V that maps a set of solutions X into real numbers. For example, the set of solutions could be the set of possible gasoline engine designs, with the value function generating the efficiency of various designs.
