ENGINEERING COOKBOOK - LOREN COOK COMPANY :A leader in the

An electronic calculator is typically a portable electronic device used to perform calculations, ranging from basic arithmetic to complex mathematics.. The first solid-state electronic calculator was created in the early 1960s. Pocket-sized devices became available in the 1970s, especially after the Intel 4004, the first microprocessor, was developed by Intel for the Japanese calculator ...

FluorPen is a portable, battery-powered fluorometer that enables quick and precise measurement of chlorophyll fluorescence parameters in the laboratory, greenhouse, or in the field. It can be effectively used for studying photosynthetic activity, stress detection, herbicide testing, or mutant screening. Measured data are sequentially stored in the internal FluorPen memory.

1. INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...

The slide rule, also known colloquially in the United States as a slipstick, is a mechanical analog computer. The slide rule is used primarily for multiplication and division, and also for functions such as exponents, roots, logarithms and trigonometry, but typically not for addition or subtraction. Though similar in name and appearance to a standard ruler, the slide rule is not meant to be ...

There is work being done at NASA on this technology. It is called Passive Porosity Technology (Pass PorT). Technical paper AIAA-2001-2412 from the American Institute of Aeronautics and Astronautics entitled, "A Boundary Condition for Simulation of Flow Over Porous Surfaces", talks about progress in modeling this technology.

SchoolStat is a program created to conduct periodic, non-technical, visual inspections of all school facilities. Other programs in the New York City Department of Education exist to provide detailed technical information regarding school facilities, however there was an unmet need for non-technical information, i.e., how the results of our facility maintenance and operations efforts appear to ...
