The Mitsubishi 380 was a mid-size family car that was produced between 2005 to 2008 by Mitsubishi Australia. Available only as a sedan, it marked the end of Australian production by the Japanese manufacturer. The 380, given the model designation DB, was the successor to the Mitsubishi Magna/Verada line of vehicles first introduced in 1985 (and 1991 for the Verada) but was only available as a sedan.

TheHolm writes... Hmm. It looks like fake 4WD. It is too low to be any good off-road. it will have the same capability as the outlander IMO. and thats not much... but you buy these things for guys like me where we need to do dirt roads and things like that and if we need a real 4WD i go back to the office and pick up the Pajero and go wherever i want.

We have launched Land Rover Hell www.LandRoverHell.com as a result of the consistent problems that we have experienced with our Land Rover Discovery since its purchase, almost 3 years ago. Besides all the problems with the car, what has compounded matters is the bad service and general uninterested and

unhelpful attitude of Land Rover Spain, and Land Rover head office in the U.K.
