Origin. The Gartner Group first used the abbreviation ERP in the 1990s to extend upon the capabilities of material requirements planning (MRP), and the later manufacturing resource planning (MRP II), as well as computer-integrated manufacturing. Without replacing these terms, ERP came to represent a larger whole that reflected the evolution of application integration beyond manufacturing.

Enterprise resource planning - Wikipedia

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time. A project is a temporary endeavor designed to produce a unique product, service or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing ...

There is an opportunity to take either a professional psychology or nutritional placement. In psychology, you will explore why humans and animals think and behave as they do, with topics including:

c8b4 - Psychology and Nutrition and BSc - Undergraduate

Stating requirements in a performance-based manner, rather than how the product should be manufactured or the service performed, allows for a greater field of offerors and solutions. This increases the possibility that solutions available in the commercial marketplace will emerge to fulfill mission requirements.
