The Ford Mustang is an American car manufactured by Ford. It was originally based on the platform of the second generation North American Ford Falcon, a compact car. The original 1962 Ford Mustang I two-seater concept car had evolved into the 1963 Mustang II four-seater concept car which Ford used to pretest how the public would take interest in the first production Mustang.

The third-generation Mustang was produced by Ford from 1978 until 1993. Built on Ford's Fox platform (and thus commonly referred to as the "Fox" or "Foxbody" Mustang), it evolved through a number of sub-models, trim levels, and drivetrain combinations during its production life. It underwent updates for 1987, and for a time seemed destined for replacement with a front-wheel drive Mazda platform.
