Note: Citations are based on reference standards. However, formatting rules can vary widely between applications and fields of interest or study. The specific requirements or preferences of your reviewing publisher, classroom teacher, institution or organization should be applied.

### **Engineering science N2. (Book, 1997) [WorldCat.org]**

Engineering Science N2 serves as a user-friendly handbook both for the student and the lecturer in that it not only contains the complete theoretical component for every module, but it also has a short revision section dealing with necessary material from the previous grade.
