Dedication To the memory of Ed Conway¹ who, along with his colleagues at Tulane University, provided a stable, adaptive, and inspirational starting point for my career. ¹Edward Daire Conway, III (1937–1985) was a student of Eberhard Friedrich Ferdinand Hopf at the University of Indiana.

Numerical Analysis - University of Chicago

Numerical analysis is the study of algorithms that use numerical approximation (as opposed to general symbolic manipulations) for the problems of mathematical analysis (as distinguished from discrete mathematics). Numerical analysis naturally finds application in all fields of engineering and the physical sciences, but in the 21st century also the life sciences, social sciences, medicine ...
