Physical Biology of the Cell is a major textbook written by four top biophysicists engaged in research and teaching at first-class institutions in the USA. The first edition of the book is only a few years old (2009), yet the second edition expands it by 200 pages, and adds new digital tools and computer code to solve selected problems.

Physical biology of the cell, Second Edition

Physical Biology of the Cell, 2nd Edition, is a textbook that focuses on the application of physical principles to understanding biological systems. The subject matter of the text is organized according to common physical principles that govern biological processes rather than in relation to the biological processes themselves, as is common for most biology and cell biology textbooks.
