publications on applications of corresponding states theory to fluid mixtures, thermodynamics of solutions, and fluid mixtures. In the most general sense thermodynamics is the study of energy -- its transformations and its relationship to the properties of matter. In its engineering applications thermodynamics has two major objectives.

Moran, M.J. • "Engineering Thermodynamics" ... Thermodynamics is both a branch of physics and an engineering science. The scientist is normally ... quiescent quantities of matter and uses the principles of thermodynamics to relate the properties of matter. Engineers are generally interested in studying
