

### **problem and solution short pdf**

The travelling salesman problem (TSP) asks the following question: "Given a list of cities and the distances between each pair of cities, what is the shortest possible route that visits each city and returns to the origin city?" It is an NP-hard problem in combinatorial optimization, important in operations research and theoretical computer science. ...

The Monty Hall problem is a brain teaser, in the form of a probability puzzle, loosely based on the American television game show Let's Make a Deal and named after its original host, Monty Hall. The problem was originally posed (and solved) in a letter by Steve Selvin to the American Statistician in 1975 (Selvin 1975a), (Selvin 1975b). It became famous as a question from a reader's letter quoted ...

Advantages & disadvantages. Advantage: Short URLs hide some technical details from end-users, which can be desirable for site owners. Among other things, this means they can be kept stable when the underlying software changes. (See above for the difference between MediaWiki's default URL structure with CGI enabled vs without).
