Project MKUltra, also called the CIA mind control program, is the code name given to a program of experiments on human subjects that were designed and undertaken by the United States Central Intelligence Agencyâ€”and which were, at times, illegal. [better source needed] Experiments on humans were intended to identify and develop drugs and procedures to be used in interrogations in order to ...

Project MKUltra - Wikipedia

The goal of this project is to provide materials and methods to our stakeholders that are effective in helping food employees understand the reasons why following proper food safety practices is ...

FDA Oral Culture Learner Project - Educational Materials

Learn about EPA's work to protect and study national waters and supply systems. Subtopics include drinking water, water quality and monitoring, infrastructure and resilience.

Water Topics | Environmental Topics | US EPA

Safer Choice is a voluntary program that works to advance the mission of EPA to protect human health and the environment by helping product manufacturers choose the safest chemical ingredients possible.

Safer Choice | US EPA

Environmental health criteria Provides assessments of the effects of chemicals on human health and the environment; they are designed for scientific experts responsible for risk evaluation, enabling relevant authorities to establish policies for the safe use of these chemicals.

WHO | Publications

Through the International Programme on Chemical Safety (IPCS), WHO works to establish the scientific basis for the sound management of chemicals, and to strengthen national capabilities and capacities for chemical safety.

This statistic shows the total revenue of the global chemical industry from 2002 to 2016. In 2002, the revenue of the chemical industry worldwide stood at around 1.78 trillion U.S. dollars. A ...

Global chemical industry revenue 2016 | Statistic

Since 1978 ECETOC, an Industry-funded, scientific, not-for-profit think tank, strives to enhance the quality and reliability of science-based chemical risk assessment.

Ecetoc - European Centre for Ecotoxicology and Toxicology

The chemical industry is growing. By 2035, the market is expected to reach around 6.5 billion dollars, more

than double what it is today. Shorter product lifecycles, difficult access to raw materials, and high customer demands pose tremendous challenges for chemical companies.
