An open path to discovery Whether you're engaged in one-on-one research projects with a faculty member or pursuing and publishing your own findings, you'll have targeted support every step along the way.

Ohio University Heritage College of Osteopathic Medicine

Intensive residential treatment services (IRTS) are time-limited mental health services provided in a residential setting. Recipients of IRTS are in need of structure and assistance from 24-hour mental health staff and at risk of significant functional deterioration if they do not receive these services.

Intensive Residential Treatment Services (IRTS)

Abstract. Introduction: Many women have doubts about the normality of the physical appearance of their vulvas. This study measured genital self-image in a convenience sample of college-educated women, and assessed whether exposure to pictures of natural vulvas influenced their genital self-image.

Approximately 15% of expected births worldwide will result in life-threatening complications during pregnancy, delivery, or the postpartum period.

Essential basic and emergency obstetric - ScienceDirect

Miscarriage, also known as spontaneous abortion and pregnancy loss, is the natural death of an embryo or fetus before it is able to survive independently. Some use the cutoff of 20 weeks of gestation, after which fetal death is known as a stillbirth. The most common symptom of a miscarriage is vaginal bleeding with or without pain. Sadness, anxiety and guilt often occur afterwards.

Miscarriage - Wikipedia

A semen analysis (plural: semen analyses), also called "seminogram" evaluates certain characteristics of a male's semen and the sperm contained therein. It is done to help evaluate male fertility, whether for those seeking pregnancy or verifying the success of vasectomy. Depending on the measurement method, just a few characteristics may be evaluated (such as with a home kit) or many ...
