The Roland RE-201, commonly known as the Space Echo, is an audio analog delay effects unit produced by the Roland Corporation. Produced from 1974 to 1990, the unit was widely used and continues to be preferred over digital delay units by a number of guitarists, who praise its sound and reliability.

The Roland D-50 is a polyphonic 61-key synthesizer produced by Roland and released in 1987. Its features include Linear Arithmetic synthesis, on-board effects, a joystick for data manipulation, and an analogue synthesis-styled layout design. The external Roland PG-1000 (1987-1990) programmer could also be attached to the D-50 for more complex manipulation of its sounds.
