Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

(A noteworthy observation in this film is that as people flee the cloud behind them, smoke is flowing up from the sewer drains in front of them. Since the World Trade Center's underground pipes ultimately emptied into New York City's sewer, this is further evidence of the secondary effects of an underground nuke.
