Executive Summary. Good financial planning software is an essential tool for today's financial advisor. Yet the reality is that it's incredibly difficult to determine what is the best financial planning software in part because advisors vary in how they use financial planning software in the first place, which means what is the "best" software for one advisor may be a terrible match ...

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy. It has two main areas of focus: asset pricing (or ...
