

solution stoichiometry help pdf

An equivalent (symbol: equiv) is the amount of a substance that reacts with (or is equivalent to) an arbitrary amount of another substance in a given chemical reaction. It is an archaic unit of measurement that was used in chemistry and the biological sciences in the era before researchers knew how to determine the chemical formula for a compound. The mass of an equivalent is called its ...

Equivalent (chemistry) - Wikipedia

Weâ€™d love to answer them for you, or have you answer them for us! Post your questions in the comments form below and the Aerogel.org staff will try to answer them for you. And if you have a good answer to a question here, feel free to post it ...
